

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Original) A method of membership protection using mobile communication device, comprising the steps of:
  - a step for constructing central control server in which a transmission and receipt of an information is controlled;
  - a step for constructing a member information database in which a member information database operates in cooperation with the central control server, and a member information including a mobile communication terminal number and a dedicated contact place is stored by the member;
  - a step for constructing a moving information database in which a moving information database operates in cooperation with the central control server, and a member's moving information is stored, and an engaged time is registered;
  - a step for starting a protection state in which moving information including an engaged time is received from a member in accordance with a control of the central control server, an engaged time is registered in the moving information database, and moving information is stored and is reported to the dedicated contact place; a step for storing a position in which a position of the mobile communication terminal is traced at a certain period in accordance with a control of the central control server until a protection state is completed after the report of releasing a protection state is received from the member after the protection state is started, and the traced information is stored in the moving information database; and
  - a step for transmitting moving information in which the position information stored

in the step for storing the position and moving information are transmitted to a mobile communication terminal of a mobilizing staff in accordance with a control of the central control server when the report of releasing a protection state is not received until the engaged time.

2. (Original) The method of claim1, wherein the step for transmitting moving information, a position data stored in the step for storing the position and the moving information are transmitted to a mobile communication terminal of a mobilizing staff in accordance with a control of the central control server when a mobilizing request report is received by the central control server from a dedicated contact place.

3. (Original) The method of claim1, wherein the step for transmitting moving information further includes a step for transmitting moving information to the dedicated contact place.

4. (Currently Amended) The method of ~~one among claims 1 through 3~~ claim 1, wherein said mobile communication terminal is a cellular phone or a PDA (Personal Digital Assistant).
